ADA Built-In Combination Locks

ADA AUTOMATIC LOCKING BOLT FOR LOCKERS WITH HANDLES AND AUTOMATIC LOCKING BARS LOCKING BOLT MOVES VERTICALLY

Built-in lock for ADA Lift Handle Latch Lockers, right hand hinged door, with Master key enabling. Includes 2 student keys with ADA key heads. Order Master Key separately. Replaces 1630.

Part No. 1636MKADA - RH Only

FOR SINGLE POINT LOCKERS. MANUAL LOCKING BOLT

Built-in lock for ADA Single Point Latch Lockers (except 1690 based lockers), right hand hinged door, with Master key enabling. Includes 2 student keys with ADA key heads. Order Master Key separately. Replaces 1670.

Part No. 1676MKADA - RH Only

ADA FOR SINGLE POINT LOCKERS. SPRING LATCH LOCKS AUTOMATICALLY.

Built-in lock for ADA single point latch lockers designed for Wrap Around Latch Technology, automatic deadbolt locking, right-hand hinged door, with Master key enabling. Includes 2 student keys with ADA key head. Order Master Key separately.

Part No. 1695MKADA - RH Only

FOR SINGLE POINT LOCKERS. SPRING LATCH LOCKS AUTOMATICALLY.

Built-in lock for single point latch lockers - Wrap Around Latch Technology™, automatic deadbolt locking, right-hand hinged door

Part No. 1690 - RH Only

DigiLock

UNLESS LOCKED WITH DIGILOCK, YOUR ADA LOCKER IS NOT COMPLIANT

- ADA Compliant*
- One-touch access
- Snap together design provides instant installation to all metal lockers
- High security lock with a 1/2" deadbolt or deadlatch
- Audio / Visual Indicators for the visual and hearing impaired
- Non-handed
- Nickel finish
- Operates on 4-AA or 4-AAA batteries (Included) depending on model, with a battery life of 3-5 years depending on usage

DigiLock T-30

Is designed for lockers with handles and a vertical locking bar. Locking bolt moves vertically and the lock functions similar to Master Lock Models 1630/1631.

Part No. T-30

DigiLock T-52

Is designed for box lockers and lockers with a single point latch. Latch moves horizontally and the lock functions similar to Master Lock Models 1652/53 or 1654/1655

Part No. T-52

DigiLock T-70

Is designed for all metal locker applications. Locking bolt moves horizontally and the lock functions similar to Master Lock Models 1670/1671

Part No. T-70

Power Jumper

Power Jumper provides external power to the lock for replacing the batteries located in the rear unit. A valid button key is also required to gain access to the lock.

Part No. Power Jumper

Management Button Key

Allows access to all locks in the system. Up to 25 Management Button Keys can be programmed per lock.

Part No. Manager Key

Programming Button Key

Used for registering User and Management Button Keys to a lock. The keys are registered by touching the Programming Button Key to the lock followed by the User or Management Button Key(s).

Part No. Programmer Key

Time-Set Button Key

DigiLock T-30 and T-52 are programmed with a 10 second default unlock time. This time can be changed with the use of a Time-Set Button Key.

Part No. Time-Set Button Key

User Button Key

Each User Button Key carries a unique digital identification that eliminates key duplication and unauthorized access. Only one User Button Key can be programmed per lock while multiple locks can be programmed with one key.

Part No. User Button Key
